## Program Overview

The Restore Louisiana Homeowner Assistance Program is dedicated to helping homeowners affected by the March and/or August 2016 floods repair and restore their damaged homes, or get reimbursed for work already completed. Funding for the Restore Louisiana Homeowner Assistance Program is allocated out of the Department of Housing and Urban Development's (HUD) Community Development Block Grant Disaster Recovery (CDBG-DR) Program.

Initially, homeowners were asked to complete a brief survey to gather information about their unmet needs related to the repair or reconstruction of their flooded home. Responses to the survey were then used to determine phased invitations to homeowners to complete a formal application. The deadline to submit the initial survey was October 19, 2018. The deadline to submit the formal application was November 16, 2018.

Homeowners invited to complete the application must also meet the eligibility criteria listed below:

- Owner occupant at time of disaster event
- Damaged address was the applicant's primary residence at the time of disaster event
- Suffered damage as a result of the March or August 2016 Severe Storms and Flooding events
- Eligible structure type as determined by program, including single family homes, duplexes, mobile homes and condominiums
- Located in one of 51 disaster declared parishes

Homeowners who qualify and are eligible for assistance may choose one of three solutions based on their progress in the rebuilding process and their capacity to complete the remaining work: Solution 1 (program-managed construction), Solution 2 (homeowner-managed construction), and/or Solution 3 (reimbursement for work already completed). More information about these solutions is available on the [Restore Louisiana website](#).

With 99%\* of grant determinations now completed (see Table 2 for more information), the program is largely focused on assisting homeowners with finishing their construction projects. For homeowners who have opted for Solution 1, the program will manage and complete the construction process on their behalf using economy-grade finishes. Homeowners who have opted for Solution 2 will oversee the completion of their construction project or the replacement of their flood-damaged Manufactured Housing Unit (MHU), and the program will monitor the project and disburse eligible grant funding as work is completed in accordance with each homeowner's signed grant agreement and approved scope of work.

Additionally, Restore Louisiana is now working with eligible homeowners whose primary residence is in a floodway as part of the Buyout and Resilient Housing Incentive Program (Solution 4). The application deadline for this program was March 29, 2019. More information about Solution 4 can be found on the [Restore Louisiana website](#).

---

\* Due to SBA duplication of benefits (DOB) grant award adjustments, the "pending determination" population now contains records previously determined to be "Zero Award" that moved back into determination processing based on a new positive award due to SBA DOB being removed as a DOB.

## Executive Summary

## APPENDIX D

In 2016, after Gov. John Bel Edwards sought federal flood recovery funding for Louisiana, Congress provided three appropriations of Community Development Block Grant-Disaster Recovery funds for nationwide recovery from several disasters. These funds were allocated by the U.S. Department of Housing and Urban Development to various states. HUD allocated \$437.8 million from the first appropriation, \$1.2 billion from the second appropriation and \$51 million from the third appropriation to Louisiana. Below is a summary of the funding requested, appropriated, and allocation across Restore Louisiana programs.

## Glossary

**Act of Donation:** A form of property transfer without exchange of payment.

**Applicant:** All homeowners who are owner-occupants of a damaged property are applicants. All owner-occupants must sign program documents.

**CDBG-DR:** Community Development Block Grant – Disaster Recovery Program

**Common Area Under Roof:** The total area under the common roof is primarily interior, conditioned spaces, and for single-story homes, equal to the footprint of the house. The term is also synonymous with the eligible area. In addition, exterior spaces such as detached porches and garages are not considered in the eligible area.

**Duplication of Benefits:** A duplication of benefit is the receipt of funding from multiple sources for the same purpose. The Robert T. Stafford Disaster Assistance and Emergency Relief Act (Stafford Act) prohibits any person, business concern or other entity from receiving financial assistance from CDBG Disaster Recovery funding with respect to any part of the loss resulting from a major disaster as to which he/she has already received financial assistance under any other program or from insurance or any other sources. It is an amount determined by the program that may result in the reduction of an award value.

**HCDA:** Housing and Community Development Act of 1974

**Housing Assistance Center (HAC):** A location where applicants meet with case managers and schedule appointments.

**HUD:** Department of Housing and Urban Development

**Low to Moderate Income (LMI) Household:** A household is considered to be of low or moderate income if the household income (including income derived from assets) is at or below 80 percent of an area's median income. All income is based on the Area Median Income limits set annually by HUD for each parish or metropolitan statistical area.

**Major/Severe Damages:** \$8,000 or more of FEMA inspected real property damage or 1 foot or more of flood damage on the first floor.

**New Construction:** A replacement home that substantially exceeds the original footprint by 20% or more on the existing lot (if permitted) or the construction of a new home in a new location.

**NFIP:** National Flood Insurance Program. When the Program refers to NFIP in the context of eligibility or duplication of benefits, the Program is referring to private and public flood insurance programs that cover structural repairs resulting from flood damages.

**Reconstruction:** Demolition and rebuilding of an existing structure based on the program's building standards. For Solution 1 reconstructions, the home is built on the same footprint as the original structure and will not substantially exceed (limited to an increase of 20% or less) the square footage of the current or demolished structure. There is no restriction on Solution 2 homes. This requirement will subordinate to the local jurisdiction's building code requirements. Additionally, homeowners completing a Solution 2 reconstruction must hire a Louisiana licensed residential contractor

**Rehabilitation:** Repairs made to an existing structure based on the program's building standards.
